TermsofReference(ToR)

1. Background

It is to inform that, the DPRand Cost Estimate for the following work has been approved from the Competent Authority after obtaining approval from Technical Committee and Estimate Scrutiny Committee and Board in its meeting dated:23.12.2024.

Sl No.	Name of the Work	Contract Period
1	Deployment of Project Management Consultants for the work of Upgradation of existing 60 MLD Sewage Treatment Plant to ultimate build capacity 80 MLD at Kengeri by providing Electro-Mechanical and Instrumentation equipments	12 Months

Further, as per the above approval, tender has been invited through e-procurement Portal and published in the e-procurement portal. Also, provision has been made in the main work estimate for Consultancy and Supervision Charges.

Since, the main STP work is costing more than Rs. 10 Crore and the Design built Construction of Sewage treatment plant requires proficiency review, advice, recommendations and supervision with an assortment of various fields in nature and thus, it is necessary to appoint Project Monitoring Consultants for their Services for the Design built STP works.

Post award of the contract, the scope of work for Project Monitoring Consultants are as follows:

1. Consultant has to review the proposals submitted by the Contractor for the Process.
2. Study the detailed working drawings for all aspects of the pump house/ WET WELL and STP with Biological Nutrient Removal prepared by contractor and offer comments and to recommend BWSSB to approve for execution
3. Consultant has to assist the Engineer & his team in monitoring day to day work in the contract, witness all the tests on Materials, equipment and process. Review all the reports, drawings etc., submitted by the Contractor and recommend to Employer & Engineer in approving
4. Supervision of work carried out by contractor and report monthly quality monitoring report for a period of 12 months. (Includes Commissioning)
5. Attend the meetings conducted under this Project and preparation of the proceedings.
6. Scrutinize the methodology of execution and erection works and Commissioning of the plant.
7. Scrutiny of Contractor’s submittals such as
   A. Work Schedule.
   B. Detailed Designs and Drawings for
      a) Mechanical and Electrical Works
      b) Automation and Instrumentation Works
      c) Any other allied works
   C. Quality Assurance / Quality Control Plans.
8. Consultant shall support the employer & his engineer in administering the contract.

9. Supervision and Contract Management (on the Mechanical, Electrical, Instrumentation, Automation work etc.) including techno-legal advice in connection withthe work.
10. Report and advise the client on progress at the site work.
11. Verification of BOQs prepared by the contractor based on the design and drawings and recommend for approval.
12. Attending joint testing with contractor and employer's engineer at site.
13. Scrutinize contractor's proposal for temporary work, if any, recommend forapproval.

Assist the Engineer in monitoring the Commissioning activities of the Project along with finalizing the main contract portion.

2.0 OBJECTIVES OF THIS ASSIGNMENT

1. Analyze, design the construction drawings (Electrical, Mechanical) for all aspects of the STP & Allied works, ISPS& allied works furnished by the contractor and offer comments and to recommend BWSSB to approve for execution.
    - On review and issue of drawings with respect to Sewage Treatment Plant and its allied works as mentioned above
    - Analyse the Mechanical GA and submission of design and Electromechanical STP design and drawing, Pump capacity and complete.
    - ISPS drawings verify and approval
    - Pumping main & other unit design &Verification and approval of drawing
    - Surge analysis verification and approval
    - All drawings to be reviewed scrupulously as per contract conditions and shall co-ordinate with the firm for any clarifications as per bid document and ensure early clearance of the drawings is submitted in the interest of early completion of project
    - As built drawing and Operation and maintenance manual approval
2. Assist the Employer and Engineer in carrying out construction supervision, progress monitoring, quality control, testing, test check of invoices, resolution of claim, change in design, and taking over, and safety management of the work.
3. Inspect mechanical and electrical equipment at manufacturers works as and when required and submit an acceptance/rejection report for considerations of BWSSB engineers who will also witness such equipment inspection along with consultant’s inspection engineer(s).
4. Prepare project schedule and render necessary assistance to BWSSB in monitoring the project and report monthly quality monitoring report for a period of months mentioned.
5. The consultant should ensure time bound completion of the works strictly as per the specifications laid down in the tender documents. They will also be responsible and assist the BWSSB Engineers for other project management related activities.

6. Attend the meetings conducted under this project and preparation of PPT, explaining the same and proceedings for the same
7. The scope of work as specified above are minimum & to be met as per Clients requirements. Any missing scope not specifically mentioned above but which are necessary for successful completion of the subject work in total shall be deemed to be included as per RFP conditions

3.0 SCOPE OF WORK

A. REVIEW OF DETAILED DESIGN AND DRAWINGS

- The consultant shall review proof check and furnish comments / advices / recommendations on the acceptability of detailed designs, drawings, data sheets, vender data, including all documents / data / design to be furnished by the contractor of the work at the time of construction / manufacture, erection, commissioning, testing of the works, till takeover of the works by BWSSB in accordance with the conditions of contract applicable. The consultant shall continue to perform this activity till all the designs, drawings, furnished by the contractor are approved as good for construction by the BWSSB on the recommendations of the consultants. Review the design prepared by the contractor including the following:
  - Any other Drawings/documents related to the project as per contract
  - Equipment vendor design / drawings / data for all mechanical, electrical equipments instruments and systems

B. PROJECT MANAGEMENT AND CONSTRUCTION SUPERVISION

1. Scrutinize construction methods proposed by contractor including environmental and safety issues.
2. Monitor the construction methods by assessing the adequacy of the contractor’s input materials, labour, equipment and construction methods;
3. Supervise and Monitor construction work and every stage of Works as per the schedule.

4. Supervise construction works from start to finish by using the modern methods of control. Verify the setting out of the works done by the contractors and ensure that it is as per drawings and designs. Ensure that the works adhere to the levels, alignment and dimensions specified in the approved drawings and designs.
5. Establish Quality assurance system including verification of source of all the material and certification;
6. Supervise the works to ensure conformance of construction works and materials to relevant IS standards/ Bid specifications/Designs/drawings. Approve materials and quality of works based on test results produced by the works Contractor, factory inspection, site testing etc. (Quality control)
7. Factory Inspection of equipment under the project.
8. Monitor and achieve progress with reference to pre-fixed targets drawn up jointly with the Contractors and furnish monthly progress reports in the formats as decided in consultation with the BWSSB.
9. Inspect and certify that the works are completed according to the specifications on final completion before final settlement of bills.
10. Prepare completion of work report for all the works.
11. Obtain As-built drawings for all the works from the contractor, verify the correctness and furnish to the BWSSB. Obtain O&M manual from the contractor after completion and before commissioning the scheme.
12. Prepare monthly project progress reports describing the physical and financial progress of the work, highlighting impediments to the quality and progress of the works and remedial actions, for submission to the Client.
13. In case of dispute, arbitration arising during the PMC services consultants will assist the BWSSB.

4.0 DELIVERABLES

Monthly Physical and Financial Progress Reports - Describing works and services performed focusing on the designs, contractors' progress and performance, quality of works, financial status and projections highlighting issues encountered and possible remedies during the reporting month and scheduled activities to be submitted within a week of the end of the reporting period, i.e. last day of every month of beginning of supervision phase;

a. Quarterly Progress Reports and Annual Reports - Describing in detail the implementation progress of all project components with issues highlighted to be within a week of the end of the reporting period i.e. every quarter and end of year;

b. Contract Completion Reports –Draft completion report and Final Completion Report

c. Project Completion Reports

d. Periodic Statement of expenditure

e. Any other reports as per the contract and as required by the BWSSB.

5.0 Timeline

Work execution from the date of commencement of works by the contractor and also as per the award of the respective works contract period

6.0 Payments:

The quoted amount for the Project Management will be paid as follows:

Construction Supervision, Inspection of Materials, and Review of Contractor's designs/ drawings

Breakup of Activities
